The following officers were elected: President, D. A. Macklin, Wilkes-Barre, Pa. Vice Presidents, Bromley, Wharton, Philadelphia; Frank P. Houston, Lancaster; John H. Philbrick, Pittsburgh; M. J. Young, Allentown; J. B. Anderson, Reading; J. E. Tietz, Carlisle; Mrs. H. C. Chalfont, Pottsville; Mrs. Florence A. Cameron, Pottsville; Mrs. J. N. Stagner, Hazleton; Mrs. Greenleaf, Pottsville; Dr. H. W. White, Pottsville; J. N. Stagner, Hazleton; Mrs. D. O. Oliver, Pottsville; Philadelphia; L. C. Colburn, Pottsville; Secretary, F. L. Resolutions were adopted advocating a system of civil service for county institution employees similar to that in the city and national governments, the belief being expressed that changes of administration should not affect faithful and efficient employees adversely. A system of pensions for employees in county institutions was recommended so that nurses, wardens, orderlies, etc., should be automatically discharged at a fixed age. A codification of the poor laws was recommended, and the Legislative Committee will ask the next General Assembly to see that conflicting laws governing the poor and poor districts be abolished.

AMENDED WAR TAX BILL REPORTED TO THE SENATE

Republicans Have First View of Measure Framed by Democrats. WASHINGTON, Oct. 8.—The Republican members of the Senate Finance Committee were called in by the Democrats today for the first time since the consideration of the war tax bill was begun and had their first view of the bill as framed by the Democrats in caucus. Later the bill was reported from the committee to the Senate by Senator Simmons, chairman of the committee. Senator Penrose, of Pennsylvania, former chairman of the Finance Committee, said that while the Republicans intended to fight the tax bill, he thought the Senate could dispose of the bill by the end of next week. Notwithstanding the large number of amendments made in the bill by the Senate Committee and Democratic caucus, it is believed these changes will be accepted for the most part by the House and that a conference on the bill will not last long. Since President Wilson has said he would be glad to see Congress adjourn when the tax bill has been disposed of, adjournment may be had by October 17 or 20. The bill reported to the Senate today will raise \$168,000,000 to meet the estimates of the Treasury experts. The biggest burden will fall upon beer and whisky. Democratic leaders insisted that the Democrats might adopt amendments in the caucus and that no amendments would be offered by Democrats in the Senate.

MARCONI COMPANY LOSES

Sought to Restrain Naval Officials From Closing Wireless Stations. NEW YORK, Oct. 8.—Judge Veeder, in the United States District Court at Brooklyn, today denied the application of the Marconi Wireless Telegraph Company of America for an injunction to restrain Secretary of the Navy Daniels and four naval officers from shutting down the wireless stations at Sea Gate, near Coney Island, and at Sagaponok, L. I. John W. Davis, solicitor general, moved the dismissal of the proceedings on the ground that the court was without jurisdiction, and Judge Veeder sustained that plea. John W. Griggs, ex-attorney for the United States' counsel for the company, said the case was brought as a test in order that his client might adopt measures for the protection of the company's business in other parts of the country, which, he alleged, suffered seriously because of the Government's action.

OXFORD UNIVERSITY REOPENS

Attendance Greatly Reduced on Account of Enlistments in War. OXFORD, Eng., Oct. 8.—Oxford opened its usual doors, despite a great decrease in attendance, due to a big part of the students' body having joined England's army. The total enrollment is not expected to exceed 1900. The students absent on military service will suffer no loss in their standings as a result, it was announced. The time spent in serving their country will count as time in residence at Oxford if the undergraduates so desired. More than 1000 American students entering Oxford for the first time are expected to receive a great deal more attention this year. They are expected to be more of a force in the school. All students will spend each day in drilling for military service.

SAY WOMEN VOTE FOR LIQUOR

Anti-suffragists Send Letter to W. C. T. U. Delegates. Prominent anti-suffragists, in a letter to the Women's Christian Temperance Union, now in convention at Oil City, Pa., denied today that their adversaries, who are appealing for the right of franchise, ever put the liquor traffic to rest through their efforts. Statisticians given showing a list of eight "wet" States where women have had the vote some time. The letter to the Women's Christian Temperance Union was authorized by the National Association Opposed to Woman Suffrage, and is signed by Mrs. John B. Heron, of Pittsburgh. Figures are given to prove that six of the seven prohibition States, only men vote, and in the three "dry" States of Virginia, West Virginia and Arkansas, the liquor traffic was abolished by a male vote. In Santa Monica, Cal., where there were 286 more women over 21 years old than men in 1910, the vote on December 2, 1913, was 3 to 1 to keep saloons, cabarets and wine rooms open on Sunday and at night. San Francisco, after women were given the vote, went wet by a large majority.

Secretary McAdoo has been asked to be honorary chairman of the committee.

NEW GOVERNMENT FOR CITY

Commission Rule Virtually Provided in Wilmington Charter. WILMINGTON, Del., Oct. 8.—The Wilmington Civic Association has completed its draft for the new charter which it proposes to ask the Legislature to pass for the city. The document has not been made public in full, but it provides for what in many respects is practically a commission form of city government. Politicians declare that under the present system of government here neither party has been able to secure a partisan advantage, so that it would be just as well to have a commission form of government, which would be cheaper and in every way more effective.

MRS. LESLIE LEFT \$1,000,000 TO HELP WOMEN GET VOTE

Mrs. Catt to Receive Largest Gift for Suffrage Ever Made in America and Say How It Shall Be Used.

NEW YORK, Oct. 8.—About \$1,000,000 is given for the furtherance of the cause of women's suffrage in the will of Mrs. Frank Leslie, widow of the publisher, which was filed in the Surrogate's Court yesterday. This is the largest individual gift to the cause that has been made in this country. Mrs. Leslie's contribution to the cause is to be administered by Mrs. Carrie Chapman Catt, to whom the testatrix left the residue of her estate for the purpose without restriction on its use. It was announced last week that Mrs. Leslie's residuary estate would go to the suffrage cause, but the amount was not then known. The petition filed with the will stated that Mrs. Leslie left realty valued at about \$30,000 and personal property valued at "upward of \$1,000,000." She remembered several relatives and friends, and also gave \$10,000 to the Society for the Prevention of Cruelty to Animals. The will disposes of about \$20,000 specifically, so that the residuary estate might amount to even more than \$1,000,000. Nothing developed yesterday as to a possible contest of the suffrage bequest by the other legatees. In leaving the bulk of her estate to Mrs. Catt, the testatrix stated: "It is my expectation and wish that she turn all my said residuary estate into cash and apply the whole thereof as she shall think most advisable to the furtherance of the cause of women's suffrage, to which she has so worthily devoted so many years of her life, and that she shall make suitable provision so that in case of her death any balance thereof remaining unexpended may be applied and expended in the same way."

DUKE A THIEF, SAYS DUCHESS

Durazzo's American Wife Wants to Have Marriage Annulled. Hanan, the shoe manufacturer, asking the annulment of her marriage to Duke Don Arturo de MaJo Durazzo, of Italy. The Duchess alleges her husband was a convicted thief, sought by the French Government, whose jurisdiction he fled after indictment, when she, ignorant of this, became his bride on February 17 last in St. Thomas, French West Indies. The Duke, whose title stands unquestioned in the investigation of his past, was served with notice in New York last Friday. That same day he wrote a letter to Mrs. MaJo Durazzo, threatening "exposure" if the case were pushed. His present address was not to be ascertained last night.

EXHIBIT OF SKULLS AND JAWS

One of Educational Features at Panama-Pacific Exposition. SAN FRANCISCO, Oct. 8.—One of the educational features of the hygiene display in the social economy exhibit of the Panama-Pacific International Exposition will be the largest collection of skulls and jaws of the prehistoric and modern races of men and of animals and plants ever exhibited. These skulls will demonstrate that the soft foods of civilized races and of domestic animals have caused diseases from which many barbarous races and all the wild animals are immune. By means of plaster casts and stereopticon slides the causes of disease and teeth will be shown. There will be a large display showing the comparatively mutilary anatomy of various animals, including man, and explaining why wild animals and savages seldom have toothache. The display will include a reproduction of the \$2,000,000 Forsyth Infirmary dental and hygienic equipment and of a model hygienic dental office. It will occupy 600 square feet of space.

I., Oct. 8.—Within a circle a mile in diameter, Coddington Cove, hundreds of dead fish floated yesterday afternoon, killed by the concussion from more than 30 pounds of a new explosive which had filled the war head of a torpedo fired into the cove. The boat, running at a 20-knot clip, was under the direction of Commander John K. Robison, of the naval station. The torpedo went easily through the net. The trial was a secret one. Nobody except the officers immediately concerned had been informed in advance of the Chief of the Bureau of Ordnance of the Navy. When the torpedo exploded about 15 feet below the surface a column of water shot 90 feet high.

Frank S. Katzenbach, Jr., of this city, who represented the paving company, asserted that the contract was a legitimate one and intimidated throughout the trial, which has lasted two days, that Kuehnle had been improperly convicted. The Atlantic City Water Commissioners to Frank S. Lockwood, and by the latter was assigned to William I. Cherry and then to the United Paving Company, in which Kuehnle was a stockholder. Lockwood and Cherry were both sworn by the complainant today and testified as to the facts of the case. It is the contention of Mr. Katzenbach that Warren Brothers Company was the real contractor. Former Judge Clarence L. Cole represented Atlantic City. He told the jury it would be contended that there was no legal assignment of the contract to Warren Brothers; that very little, if any, extra work was done and that the bid for the alleged extra work were not approved by the Mayor, the engineer or the Water Commissioners of Atlantic City.

Wagner, State Commissioner of Education, and Miss Josephine Robinson, dean of the new college for women at Newark, made addresses. It is the plan of these two educators and Doctor Mitchell, president of Delaware College, to attend every convention held in the State where opportunity offers to advance the cause of education. The Rev. Thomas Hays, of the Anti-Saloon League of Baltimore, was another speaker this afternoon, and urged the women to continue their fight for prohibition. He took considerable encouragement from what already has been accomplished in Delaware and urged the women to continue their work. This evening there will be an address by the Rev. Edward Reinecke, of Philadelphia. A feature of the convention has been the general hopefulness expressed. There has not been a discouraging report presented during the entire two days of the convention.

Kleinman, 118 Nassau street. The stamps are of plate printed with inverted flags, and collectors have only three examples of it that have been saved. Yesterday's price made a new high record. Mr. Tuttle also paid \$377 for a 30-cent American stamp of the issue of 1851, for which a record of \$115 had been made at a previous sale. Both of yesterday's purchases were made on commission for an unnamed collector. The sale is of uncommon interest because importation of rare stamps has been cut off from Germany, which has been the main source of supply for collectors.

GIRL'S PISTOL AT HIS HEAD AS HE DRIVES HIS AUTO

Man Steers Into Embankment on "Marriage or Death" Threat. PITTSBURGH, Oct. 8.—"Death or marriage" was the cause of a near-tragedy enacted in an automobile on the principal downtown streets by Lillian Kreps and Benjamin Werner, an automobile dealer. Werner had taken the girl, whom he had formerly been engaged to marry, out for a ride. When they entered Fifth avenue, the principal business thoroughfare downtown, Werner says the jilted girl pulled a big automatic revolver and, thrusting it against the back of his head, in plain sight of hundreds of passersby, ordered him to drive to the residence of an East End minister or prepare to die. Thinking that he might persuade Miss Kreps to cease her threats, Werner tried to talk, but says he was curiously told to move lively. Extra pressure of the big automatic against Werner's head accelerated his movements, and the big car sped on. On Grant boulevard, near Washington street, the cowed Werner dropped the steering gear and vaulted into the rear seat, but his strategy failed, as, according to Werner, Miss Kreps brought the heavy revolver butt down on his head, opening a big gash and rendering him unconscious. Deprived of guidance, the car crashed into an embankment and piled up in a heap. Passersby detained Miss Kreps. Werner was taken from the wreckage by the police and rushed to the hospital, where his injuries were dressed. Miss Kreps is the daughter of a restaurant proprietor in Elizabeth. Werner is prominently connected here.

Straight From the Shoulder to Men Who Want New Clothes

Your business is to find out where you can get the best goods for the money you are going to spend. Our business is to prove that this is the place. Not with this advertisement, nor with any advertisement but—with the goods. With the good, sound, all-wool and tailored suits and overcoats. In the best quality fabrics that the woolen market affords. In the best fashion designs that the world knows anything about, And in the best tailoring that the experienced workers of the best manufacturers can produce. We believe we can prove to you—with the goods—that we have this merchandise here better than you will find it elsewhere at the prices. The reason being that we have been in the business longer and ought to know more about it. Everything in our Men's Clothing Store is made over OUR patterns, out of fabrics of OUR selection, tailored OUR way and sold at OUR price—not at any price dictated by any manufacturer or by any agreement. Men's clothes this year are good. The pressure upon the manufacturers by some good stores that cared more about good qualities and good values than about bargain sales to advertise has compelled an improvement in woolen cloths. This means longer wearing suits and better fitting suits. It means more for the money. Now when assortments are at their best is a better time to inspect these goods than any other time will be.
